PRODUCT DESCRIPTION

The example shows a Grand Douglas Gate with a Scalloped Picket Topper (Concave). Nantucket arbour not included.

“Concave” refers to the shape of the curve on top of the fence. If the the arc is higher in the center than at the posts it’s convex. If the arc is lower in the center than at the posts it’s concave.

Standard Wood Gates are priced at twice the price per foot of the matching fence style. For example, if a fence style is \$20/ftto a matching gate will start at \$40/ft.
