## PRODUCT DESCRIPTION

Starting as low as \$199/foot [Fully Installed](#), the Grand Garnet Style features the treated steel framework and wood privacy boards of the Gardenia but the chosen topper is scalloped.

The example shows a Grand Garnet with a concave Rockefeller iron topper.

"Concave" refers to the shape of the curve on top of the fence. If the the arc is higher in the center than at the posts it's convex. If the arc is lower in the center than at the posts it's concave.

The Grand Garnet is also available with vinyl boards for better long-term protection.

Note: dog owners should be aware that gaps can form under horizontal fences if the grade of the yard isn't perfectly level.
