PRODUCT DESCRIPTION

The Kars has puppy fill just like the Laurier but the pickets are curved on top.

The example above shows a Kars (Concave) Gate made of Cedar.

"Concave" refers to the shape of the curve on top of the gate. If the the arc is lower in the center than at the posts it's concave. If the arc is higher in the center than at the posts it's convex.

Standard Wood Gates are priced at twice the price per foot of the matching fence style. For example, if a fence style is \$80/ft a matching gate will start at \$160/ft.
