## PRODUCT DESCRIPTION

**Steps** come in a variety of different designs. They can be made from cedar, pressure treated wood, or composite material. **Open Steps** rest **on top** of the stringers (the side frames of the steps). **Closed Steps** are built **between** the stringers. **Curved Steps** are elegantly shaped.

### Types of Steps:

- Open Steps (not available curved)
- Closed Steps with No Fascia (not available in composite)
  - Closed Steps with Single Fascia
  - Closed Steps with Double Fascia
- Any of the above **closed** steps can be curved.
